WEB DEVELOPER / TECH EVANGELIST / JOURNALIST

Add GA (or your final project at GA) if you are applying to dev roles. "Software Engineering Immersive", and 3-4 bullets highlighting the results of your projects and programming languages used.

TECHNOLOGY EVANGELIST @ JET.COM (Feb 2017-Feb 2018)

Dates here, no parentheses needed

use bullets consistently rather than "- -"

- **Developed/executed** Jet's internal and external evangelism strategy

- **Empowered** Jet engineers by helping them write and deliver tech talks

--Planned, organized and hosted **Jet Tech Meetups** (<https://www.meetup.com/Jet-Technology-HQ/>)

--Edited and rehearsed **tech talks** with engineers (topics: Go, Microservices, React.js, JSON, UX, QA...)

--Managed content of Jet's **technical blog** and **Twitter account** (@JetTechnology)

--Developed Jet's sponsorship strategy for **tech conferences** and organizations.

move headings left

WEB DEVELOPMENT INTERN @ THE NEW YORK TIMES (June-Aug 2016)

--Assisted in building internal site performance tools using Backbone.js

--Wrote front-end code to team project tracking Facebook readership (Node.js, Angular)

--Contributed front-end code to online stylebook redesign prototype (HTML, CSS)

MARKETS EDITOR @ BLOOMBERG, NEW YORK (2011-2015)

--Researched and edited features, interviews and breaking stories for Bloomberg's terminal

--Produced original and forward-looking coverage on Russian and Chinese companies

--Coordinated coverage with bureaus worldwide, including Beijing, Moscow and London

CHIEF CORRESPONDENT @ REUTERS, SEOUL (2006-2009)

--Managed a team of journalists reporting on South Korean markets and companies

--Wrote trend pieces, earnings analyses, interviews on Korea's tech giants (Samsung, LG)

--Broke news on major M&As and IPOs; helped coverage of North Korea

--Assisted coverage of 2008 Beijing Olympics

--Made hiring decisions on reporters and interns; managed training and reviews
